# SCANNED DOCUMENTS
# PLAT VIEWER

(Please download the newest version of the **free**
Adobe Acrobat Reader for the best viewing experience.)

This interface displays the Plat documents as Adobe PDF files.
The PDFs can be downloaded, saved, emailed, and/or printed.

All the features of the other viewers are available through this streamlined interface, including:
- zoom, pan, rotate
- printing to scale, either the whole page if you have a large format printer or just a small section on 8 ½" x 11 paper.
- you can also print small sections of the map or the entire thing regardless of scale.

Also finding and retrieving maps is done all in one window.  To get started, use the search form below to find the document you want.
