PID: 13722

U.S. ARMY CORPS OF ENGINEERS
PERMIT NUMBER: NWP# 18

OHIO EPA
PERMIT NUMBER: N/A

DATE: 11/07/00

NATIONWIDE PERMIT #18 - MINOR DISCHARGES

Minor discharges of dredged or fill material into all waters of the United States provided that the activity meets all of the following criteria:

- a. The quantity of discharged material and the volume of excavated area does not exceed 25 cubic yards below the plane of the ordinary high water mark or the high tide line;
- b. The discharge, including any excavated area, will not cause the loss of more than 1/10 acre of a special aquatic site, including wetlands. For the purposes of this NWP, the acreage limitation includes the filled area and excavated area plus special aquatic sites that are adversely affected by flooding and special aquatic sites that are drained so that they would no longer be a water of the United States as a result of the project;
- c. If the discharge, including any excavated area, exceeds 10 cubic yards below the plane of the ordinary high water mark or the high tide line or if the discharge is in a special aquatic site, including wetlands, the permittee notifies the District Engineer in accordance with the "Notification" general condition. For discharges in special aquatic sites, including wetlands, the notification must also include a delineation of affected special aquatic sites, including wetlands (Also see 33 CFR 330.1 (e)); and
- d. The discharge, including all attendant features, both temporary and permanent, is part of a single and complete project and is not placed for the purpose of a stream diversion.
- e. This NWP can not be used in conjunction with NWP 26 for any single and complete project. (Sections 10 and 404)

Ohio State Certification General Conditions apply to this nationwide permit

Ohio State Certification Special Conditions and Limitations:

This Nationwide Permit shall not authorize the installation of vertical bulkheads and associated backfill except on river and harbor banks adjacent to the federal navigation channels within the following harbors: Sandusky Harbor, Huron Harbor, Vermilion Harbor, Lorain Harbor, Conneaut Harbor, Port Clinton Harbor, Rocky River Harbor, Cleveland Harbor, Fairport Harbor, Ashtabula Harbor, and Toledo Harbor.

If used to authorize utility line backfills and bedding, this Nationwide Permit shall authorize sidelaying or stockpiling of dredged or fill material for a maximum of 3 months.

Dredged material shall be placed directly at an upland site in such a way that sediment runoff to any surface water is controlled and minimized.
