

**SPECIAL PROVISION FOR A+B BIDDING "CALENDAR DAYS OF CONTRACT TIME FOR OPENING TO TRAFFIC"****Description**

As part of Section 103.01 of the CMS, "Award and Execution of Contract - Consideration of Proposals" this contract requires the Contractor to stipulate the number of "Calendar Days of Contract Time for Opening to Traffic." (Hereafter referred to as "Calendar Days for Opening to Traffic" or "Calendar Days") The bidder shall establish the number of calendar days to complete the work necessary to open the project to traffic which shall include all work as defined herein. This number of "Calendar Days" shall be shown in the proposal in the list of bid items under Part B Line \_\_\_\_\_, Page \_\_\_\_\_. The extended price (amount column) shall not be paid to the Contractor as part of the total payment for this project.

**Maximum Number of Days**

90 days will be the maximum number of days that will be accepted for the number of "Calendar Days of Contract Time for Opening to Traffic."

**Consideration of Bids**

The product of the specified number of "Calendar Days" multiplied by the average daily user cost of \$ 3,500 per day shall become part of the Contractor's total bid only for the purpose of determining the low bidder.

Each bid submitted shall contain the total of the following two parts:

- Part A - Total Dollar amount of the items of work.
- Part B - Product of the number of "Calendar Days for Opening to Traffic" multiplied by \$ 3,500

The lowest total of these two parts, as verified by the Department, will be the lowest bid for award consideration.

**Total Contract Amount**

The product of the number of calendar days multiplied by \$3,500 (The Part B Total) shall not be used or paid to the Contractor as part of the final payment. The total contract amount will be based on the items of work as totaled in Part A, any adjustments as determined by the provision of Section 100 of the CMS, and earned incentive and any assessment of disincentive or liquidated damages.

It will not be necessary for the proposal guarantee to include the amount of Part B. The Part B total will not be used in the calculation to determine the Contractor's net prequalification amount.

The net classification for this project was determined using the total of Part A.

In Section 624, "Mobilization," Subsection 624.06, Basis of Payment, the total original contract amount will be only the total of Part A.

The subcontracting limitation will be based on the total of Part A.
