SURVEYOR'S NOTES:

Project Control Coordinates for this improvement project have been established in accordance with procedures detailing the conversion of "Grid" Coordinates to "Ground" Coordinates contained in the State of Ohio Department of Transportation Survey Manual Section 303.52 (May, 1995).

Observations utilizing the Ohio State Plane Coordinate System (Zone 3401-Ohio North) have been adjusted for use "on the ground" by dividing the observed NAD83(CORS) coordinate values by a calculated average combined factor of 0.999986300371. All coordinates shown herein are expressed as Project (Ground) Coordinates and should not be confused with Ohio State Plane Grid Coordinates.

Bearings shown hereon have been determined from observations to the control stations established for this project and are compatible with those obtained when projected onto the Ohio State Plane.
