

RECORD OF SURVEYS,

Plat of *Survey*, No. *138*, *Kirtland* Township *9 N*, Range *9 W*

Survey made *Oct 7* ^{*1881*}_{*188*}, at the request of *County Commissioners*
 For the purpose of *Locating the line of a county road*

by _____ County Surveyor.

DESCRIPTION.

Taken from Venner's Report.
 We do find the true line of the center of said road as the same has been worked, recognized and used for many years (more than forty years) to be parallel with and twenty five (25) feet easterly from the east line of lots 1 and 14 and that the whole of said road lies along the westerly margin of said lots 2 and 15 and that said lot line between lots 1 and 2 and between lots 14 and 15 has for many years been recognized as the westerly boundary of said road and so we find it today and also find that fifty (50) feet in width for said road is all that public convenience requires.
 The courses, distances and monuments found and placed appear fully upon the plat on opposite page.

CALCULATIONS.

Sta.	Course.	Distance.	Latitude		Departure.		Double Longitude.	Double Areas.		REMARKS
			North.	South	East.	West.		North.	South.
